

OAuth 2 - Quickbook Connector User Manual

Base URL pattern :

If using Sandbox: <https://sandbox-quickbooks.api.intuit.com/v3/company/>

If using Production: <https://your-production-url.com/v3/company/>

1. Create a New Sandbox : Click on **Create** button.

2. Enter the details Name, URL (Sandbox base URL), Consumer key and Consumer secret key, select the version (v2) and select the Scope. Add the Redirect URI given in Quickbook. **Save** the record.

The screenshot shows the Odoo Backend configuration page for a new OAuth2 Authorization. The configuration is for 'Sandbox India' and includes the following fields:

- Name:** Sandbox India
- Configuration:**
 - Uri:** https://sandbox-quickbooks.api.intuit.com/v3/company/
 - Consumer key:** Q0GEptK8exgFizZ9gVQ6beTA5yLEq4Uij2NiOCrveElwpYIXZL
 - Consumer Secret:** CxYXYdJHD72ev5AIfC83QI4VINMLJuab9SbswRm
 - OAuth Type:** OAuth2
 - Version:** V2
 - Company Id:** (Empty field)
 - Go to link:** (Empty field)
 - Authorized Uri:** (Empty field)
 - Redirect URI:** https://www.getpostman.com/oauth2/callback
 - Authorization Base URL:** https://appcenter.intuit.com/connect/oauth2
 - Token URL:** https://oauth.platform.intuit.com/oauth2/v1/tokens/bearer
 - Scope:** Accounting

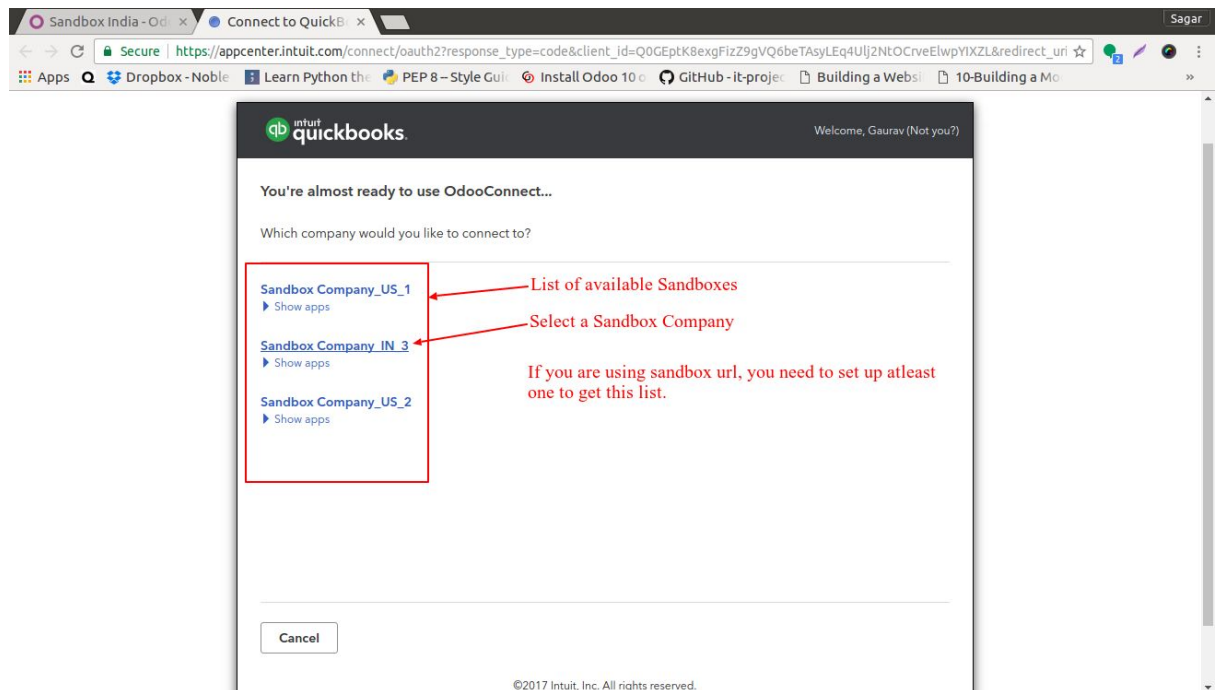

- Click on **OAuth2 Authorization** button to authorize it.

This screenshot shows the same configuration page as above, but with annotations indicating the next steps:

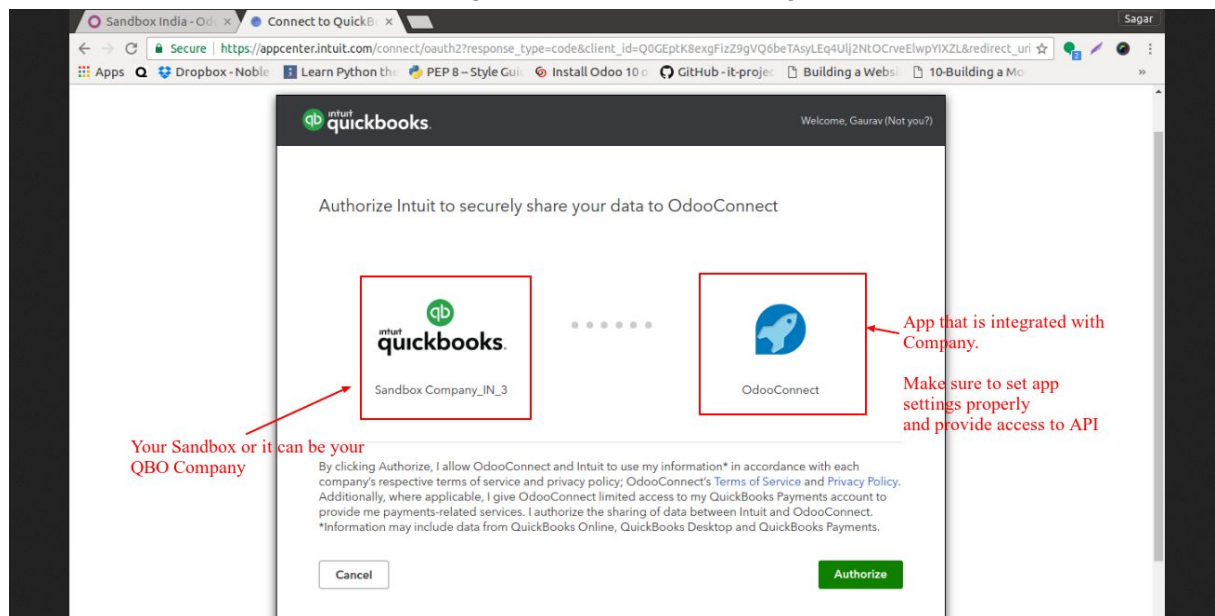

- A red arrow points to the **OAuth2 Authorization** button in the top navigation bar with the text "Click on button".
- A red box highlights the **Go to link** field, which now contains the URL: https://appcenter.intuit.com/connect/oauth2?response_type=code&client_id=Q0GEptK8exgFizZ9gVQ6b... . A red arrow points to this field with the text "Go to Link will appear here automatically Click on link and Authorize".

Go to link will get displayed automatically. Click on goto link to proceed with authorization.

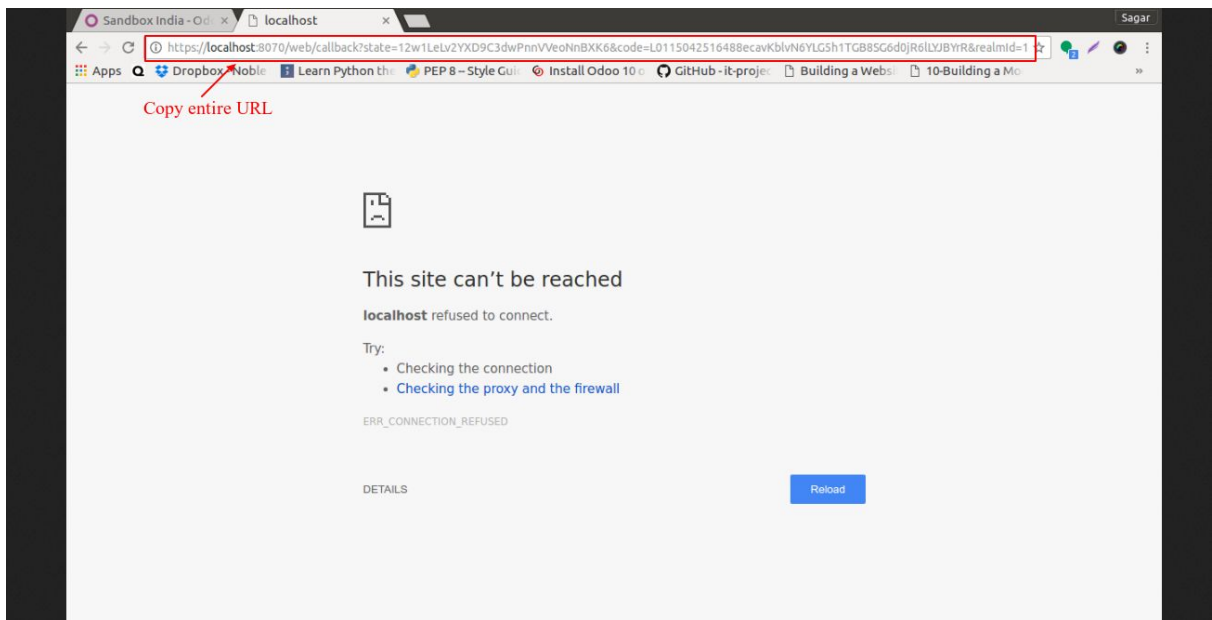

- If not logged in, it will ask to log in first. Then, available list of sandbox will get displayed. Select the particular Sandbox.

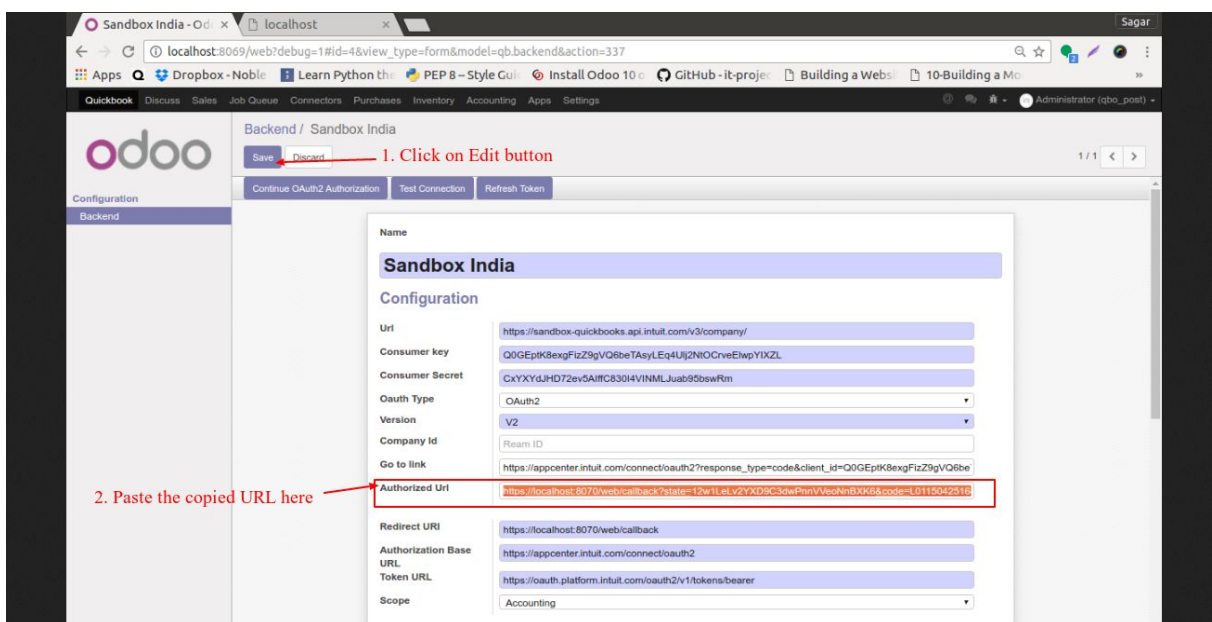

- Click on **Authorize** button. You will get redirected to new page.

6. Copy the entire URL

7. Paste the copied URL into **Authorized URL** field.

- Go to end of URL and copy **realmId** value and paste the value in **Company Id** field. Click on **Continue OAuth2 Authorization** button.
